44.	a. active	b. energetic	c. couch potato	d. lazy																																						
45.	a. prevent	b. make	c. become	d. balance																																						
		15																																								

4 B. Read the passage and answer the questions.

Many people are deaf or cannot hear sounds well. They use sign language. They talk with their hands. Two people with hearing problems can talk to each other. They both use sign language. Sometimes people who can hear also use sign language to talk to them.

There are two kinds of hand signs. Some hand signs are for whole word love. There is one hand sign for different action, things, and ideas. Some of the signs are very easy, for example, the signs for eat, milk, and house. You can see what they mean. Others are more difficult, for example, the signs for star, egg, and week.

The second kind of hand sign is fingerspelling. In fingerspelling, there is a sign for every letter in the alphabet. For example, to fingerspell the word love, a person makes four different signs. It is much slower, but it is useful for saying words like names and some other words, people can use both kinds of hand signs together.

Each country has its own sign language. For example, American sign language (ASL) is very different from British sign language. Using sign language is almost like a dance. The whole body talks. Sign languages are beautiful.

Write T if the sentence is true. Write F if the sentence is false.

46. (.....) People with hearing problems can talk to each other with hands.
47.(.....) A person who uses sign language cannot hear or speak well.
48.(.....) British sign language is the same as American sign language.
49.(.....) People cannot use both kinds of hand signs together.

50. What does whole (in paragraphs 2 and 4) mean?

- a. None of something b. Part of something c. All of something

51. What is the main idea of the text?

- a. Sign language helps people with hearing problems talk, but it is difficult to learn.
b. There are two kinds of sign language: American sign language and British sign language.
c. A sign language helps people who cannot hear talk to each other.

“Good Luck”
