متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.

For many people, their teenage years – from 13 to 19 – are sometimes the best or worst years of their lives. Sometimes some teenagers feel that there are many differences between them and their parents. Teenagers often want to show that what they do is correct. They want to wear different clothes to show that they are free. In some countries, they can drive when they are only 16. Many young people work at part-time jobs after school and on weekends, so they can buy their own cars. After finishing high school, some of them live in their own apartments. Still teenagers must know that their parents have a lot to share with them: their life experiences, their failures, their successes. They should respect and care for their parents as parents are the best support in their lives.

It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents, as **they** are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them.
