                              (encourages – available - mentions - believe)
One of the proverbs in English is' 'An apple a day keeps the doctor away. 'This short proverb (31) encourages
children to eat fresh fruit to keep healthy and what fruit is more (32) available than the apple? Most people
(33) mentions that the forbidden fruit which Eve gave to Adam in the Garden of Eden was an apple, but the
Bible never (34) believe it as such. While an apple may be the forbidden fruit, it is also one of the most delicious
and finds its way into our diet
                                                            ذ ـ متن زير را بخوانيد و به سوالات آن ياسخ دهيد. ( ٢ نمره )
Scientist is a person who studies or has a lot of information in science. A scientist tries to understand about the
world and other things. Scientists make observations, ask different questions, and do a lot of research work in
finding answers to many questions. Scientists may work in laboratories, schools, and universities. They do
experiments to find facts and invent things. Scientists try to use their knowledge to develop the world. We
always want them to talk about their inventions, findings with us. They can tell people like you and me.
35. Where do scientists work?
a. in the library
                                                 b. in laboratories
c. at people's home
                                                 d. in many countries
36. Scientists do experiments to......
a. find inventors
                                                 b. talk with people
c. invent things
                                                 d. use their knowledge
37. Which is not true about Scientists?
a. They understand the world better
                                                 b. They work in different places
                                                  d. Their knowledge develops the world
c. They can't find facts at all
38. Scientists don't make observations in the world.
                                                             a. True
                                                                          b. False
