١	با توجه به تصویر داده شده جای خالی را کامل کنید. **Top press** Top	11
٣	Culture is a system of shared beliefs that are common in a society. Some cultural elements include food, music, clothing, holidays, values, behaviors, and artifacts. Learning to respect other cultures is important for having new experience and learning about the world. One of the first things to learn about other cultures is to simply accept that there are many different cultures other than our own culture. One of the most important ways to learn to become respectful of other cultures is to spend some time reflecting on our own. Then it is important to understand something about other cultures. For those who want to learn about other cultures, but do not know where to start, a great place to start is reading about the cultures that interest them. In today's world, if we all are able to know about other cultures, and respect them, life would be easier for most of us. True / False Culture is only a combination of food, clothing, and holidays. True b. False Culture completion:	,,,

Language is a powerful tool that humans use to communicate with each other. Verbal and non-verbal communication has become the key to success of people in their daily life. Verbal communication, using words instead of gestures, is the necessary tool for communication. Non-verbal communication has diverse forms such as body language, gestures, facial expressions, sign language, etc. All languages have spoken forms, but some of them don't have written forms? Surprisingly, there are about V · · · languages in the world. Of these languages, more than T · w languages are in Africa, 1 . . . in Americas, more than TTo. in Asia, about TT. in Europe and more than \riversigned in Oceania. About \$\sigma \xi \languages have fewer than 99 speakers, making nearly \$\languages\$ percent of the world's languages. We call them "endangered languages". As the speakers of such languages grow old and die, their languages will die, too.

10

No.	Scan the passage for	Answer
٤٥	The percent of endangered languages:	
13	The continent with the largest number of languages:	e.
٤٧	The reference of the underlined "their" in the last line:	
٤٨	The number of languages with fewer than 99 speakers:	
٤٩	An example of non-verbal communication:	
۰۰	Two forms of language:	

متن زیر را که درباره هوش مصنوعی است، با دقت بخوانید و به سوالات پاسخ دهید.

Artificial Intelligence, or AI, is the ability of a computer or a robot to do activities that usually need human intelligence. These tasks and activities include understanding languages, recognizing pictures, solving problems, and learning from experience. AI is used in many parts of our lives today, like virtual assistance, self-driving cars, and suggestion systems on websites. AI helps doctors cure diseases and suggests good medicines in healthcare. AI is also changing education in many ways. Many schools and universities use AI tools to help students learn better. These tools can check how well students are doing, show what they need to work on, and give lessons that meet their needs. AI can give quick feedback on homework and tests, helping students learn faster. Teachers can also use AI to save time on grading and making lesson plans.

AI has many good uses; however, some people worry about its bad effects. They think AI might take away jobs. Others are also worried that AI might make mistakes. Despite these worries, many specialists believe that if AI is used carefully and with good rules, it can help society a lot. So. people, companies, and governments need to work together to use AI in a good and fair way.

True / False

4

AI can understand languages and recognize pictures.

a. True b. False

or. AI is mostly used in computers and has no use in cars.

a. True b False

AI tools can help teachers to grade and make lesson plans.

a. True b. False

Choose the best answer.

. What does the underlined "these" in paragraph one refer to?

a. schools

c. universities

d. students

Answer the following questions.

b. tools

. What is Artificial Intelligence?

٥٦. Why do some people worry about AI?
